# OUR STORY

With big dreams to reshape the uniform industry, Creativecollars was established in 2012 to reinvent the concept of uniforms in Mauritius. With a vision to offer more than what was already being offered in terms of design, style and fabrics at the time to the uniform industry, Creativecollars manufactures tailor-made uniforms that truly represented its customers brand, and enhanced their experience. Since then, Creativecollars has defined a new standard for the corporate world by creating corporate clothing made with fabrics of the utmost quality.

Our global partners have also been a major driving force to better serve our clients' requirements, as a wider range of opportunities and facilities are now accessible. Our factories in Mauritius, India and South Africa offer a combined production capacity of 10,000 units per month. In 2023, our office in Johannesburg, South Africa, has become operational and is working on serving the South African market.

The Founder/Director ensures that the business always offers a pleasant work experience to the staff, and this shows in the quality of service that we provide. It is an honour to say that many of our foundation clients are still our clients today. We aim to provide reliable quality and competitive prices to all our customers.
